Years of Experience	Projects Completed

WORK EXPERIENCE

Senior WordPress Developer

Corporate Software Services

June 2026 – Present

- Integrate secure payment gateways into WordPress and WooCommerce websites, ensuring smooth and reliable checkout experiences
- Manage end-to-end website deployment, taking projects from staging through to live production environments
- Diagnose and resolve website errors and bugs efficiently, minimizing downtime and keeping sites stable
- Configure and customize WooCommerce stores, including products, plugins and store settings to match client requirements
- Set up transactional and marketing email systems (SMTP, order and notification emails) for ecommerce websites
- Handle full projects independently, from planning through to delivery

Frontend WordPress Developer

The Techclone

2022 – June 2026

- Worked with design, backend and marketing teams to build user-friendly, responsive website interfaces
- Developed and customized WordPress themes using Elementor, refining layouts for performance and usability
- Built and maintained ecommerce and business websites on Shopify, Wix, Squarespace and WooCommerce/Woodmart
- Improved website performance, page speed and cross-browser compatibility

Web Developer Intern

The Techclone

2021 – 2022

- Started out gaining hands-on experience in HTML5, CSS3, JavaScript and WordPress fundamentals
- Supported the development team on live client projects and basic theme customization
